

Celebrating the Triangle's First Year of FM Country Music

Copy by me →

The Triangle area is a place of rapid growth and change. That's exciting. But there are still many old traditions and memories here that will always be around. The old and the new blend together so well to make the Triangle a special place to live.

There's a special blend in today's country music, too. The new and classic come together to make a unique sound. That's WQDR. WQDR brings you the best sounds in contemporary country music plus a weekly series featuring live concerts by top country artists — the Silver Eagle Cross Country Music Show. And listen to 94.7 FM for all the UNC football and basketball games.

Country music in the Triangle. It's the sound of today. It's WQDR.
